PLUG AND WORK BUSINESS-CENTER

BÖBLINGEN | BUDAPEST | DRESDEN | DÜSSELDORF
FRANKFURT | LEIPZIG | STUTTGART

we run your office
while you are running your business

The plug and work solution

plug and work business-centers

Companies of today are expected to quickly and flexibly deal with decentralized structures and reduced manpower – circumstances for which plug and work business-center offer a first class solution. With us, modern enterprises can find high quality working space for 1 to 15 employees. Additionally, there are a number of valuable office management services you can take advantage of. We support our clients as good as we can so they can benefit from a maximum of flexibility, quality, gain of time and cost efficiency.

More flexibility

Agreeing to a conventional lease contract always means less flexibility and thus higher risk. If it comes to working space for 1 to 15 employees, a plug and work business-center is the better solution as it can grow or shrink according to the space and time parameters in question.

Better quality

plug and work business-center offer high quality working space to all those who would like to concentrate on their core business; for instance by putting a convenient location, high-quality furnishing, state of the art technological equipment, modern training and conference rooms or comprehensive service by plug and work employees at your disposal.

More gain of time

plug and work offers a ready to go solution. You can start your everyday business immediately after moving in without losing any time for preparation. We also support you with many administrative services like reception, secretarial work, cleaning or running errands. Thus, you can concentrate on your core business, saving a great deal of valuable time.

More cost efficiency

Compared to a conventional lease the monthly costs at a plug and work business-center are considerably low. The reasons are efficient use of space, the well priced acquisition of furniture and consumer goods in large quantities as well as the shared use of many services and facilities. Ask for our cost comparison!
